Hazard Community & Technical College

Hazard, Kentucky

All Classes Are Free Of Charge

MOUNTAIN FIREFIGHTERS ASSOCIATION

32nd ANNUAL FIRE SCHOOL

HAZARD, KENTUCKY

AUGUST 28th & 29th, 2010

CLASS 1:

BASIC FIREFIGHTING

This 2 day class will be held on Saturday and Sunday. In this course we offer you 16 of the first 20 hours that a firefighter must have before they can respond to a scene. Full turnout gear and SCBA are required.

Saturday

Administration and Organization	2 hours
Safety	1 hour
Ladders	2 hours
Ropes	1 hour
Personal Protective Equipment	2 hours

Sunday

Personal Protective Equipment	1 hour
Fire Behavior	1 hour
Ventilation	1 hour

Fire Hose/Nozzles/Appliances	2 hours
Fire Control	1 hour
Salvage & Overhaul	2 hours

Instructors: State Fire Rescue Training Instructors

CLASS 2:

JUNIOR FIREFIGHTING CLASS (EXPLORER)

This 2 day course will be held on both Saturday and Sunday. You will receive hands on training in Ropes, Personal Protective Equipment, SCBA and other basic training topics. Bring a letter from your fire chief giving permission for you to train. Bring turnout gear if you have it available to you.

Instructors: State Fire Rescue Training Instructors

CLASS 3:

BLOCKS OF HARD TO GET HOURS

This is an 8 hours class on Saturday or Sunday. Here is a chance for you to obtain some of the categories that are sometimes hard to get, but you must have to become a certified firefighter. Take the entire course or choose only to take the hours that you need.

Saturday

Fire alarms and communications	2 hours
Sprinklers	2 hours
Inspections	2 hours
Aircraft rescue	2 hours

Sunday

Ropes and Knots	2 hours
Forcible entry	2 hours

Disaster preparedness
Public fire education

2 hours
2 hours

Instructor: State Fire Rescue Training Instructors

CLASS 4:

FIREFIGHTER SURVIVAL

This is an 8 hour course and will be offered on Saturday only. This course will emphasize the removal of trapped or unconscious firefighters from a burning building and self rescue techniques when the primary escape route is blocked. This is a required course for all new firefighters in Kentucky. Full turn out gear and SCBA are required.

Instructor: State Fire Rescue Training Instructors

CLASS 5:

FIREFIGHTER RESCUE

This is an 8 hour course and will be offered on Sunday only. This course is designed to teach you how to rescue fellow firefighters from a burning structure. Special techniques are used for the rescue portion. This is a required course for all new firefighters in Kentucky. The completion of FF survival is a prerequisite for this course. Full turnout gear and SCBA are required.

Instructors: State Fire Rescue Training Instructors

CLASS 6:

INTRODUCTION TO LARGE ANIMAL RESCUE

In this lecture-hands on based, introduction course, topics such as: safety concerns for rescuer, public and animals will be discussed. Equine medical emergencies, types of animal entrapment, and rescue techniques transportation/highway emergencies with animal involvement will also be addressed. This is an 8 hour class on Saturday only.

Instructors: State Fire Rescue Training Instructors

CLASS 7:

KENTUCKY FIRE COMMISSION 2010 AND BEYOND

This is an 8 hour course which will be held on Saturday and Sunday. The new Health and Wellness Initiatives, including CPAT and Peer Fitness will be discussed. The operation of the Drivers Training Simulator will be will be discussed as well. The NFIRS incident reporting system along with the new training records system will be demonstrated. The 2009 Kentucky General Assembly bills effecting fire departments will be covered. Seldom in the history of Kentucky's fire service have so many changes been occurring at the same time as we have had during the past two years, and we are sure to see even more projects in the future. This class will provide you the latest information on a host of Fire Commission programs and policies and their effect on your department, including who is handling the various programs, who to call on a variety of issues, plans for the future, and one on one communications. This class provides time for you to get your questions answered and your opinions heard, so do not miss this opportunity.

Instructor: KY Fire Commission Staff Members

CLASS 8:

ROPE RESCUE (RAPPELLING)

This 2 day class will be held on both Saturday and Sunday. In this course we offer you 16 hours of rope rescue. The student will learn rope construction, rope rescue hardware, knots used in rappelling along with some rope rescue commands. The instructors will accept students from every level. So it doesn't matter if you are a beginner or an advanced student. Come to learn and to also have some fun! Leather gloves, a helmet with a chin strap and leather boots are required.

Instructor: State Fire Rescue Training Instructors

CLASS 9:

FIRST RESPONDER AND EMERGENCY MEDICAL TECHNICIAN CONTINUING EDUCATION

This 2 day course will be held on both Saturday and Sunday. These are the 16 hours required to recertify under both the State and National Registry. You may take all 16 hours or just the hours you need.

Saturday

Preparatory	1 hour
Airway	2 hours
Trauma	3 hours
Patient Assessment	2 hours

Sunday

Patient Assessment	2 hours
Medical/Behavioral Emergencies	4 hours
OB and Pediatrics	2 hours

Instructors: State Fire Rescue Training Instructors

CLASS 10:

AUTO EXTRICATION

This is a course in the safe and efficient use of rescue equipment. Students will be instructed in the most effective rescue techniques designed to protect both the victim and rescue personnel. Simple and sophisticated rescue equipment will be employed as the situation requires. Hybrid vehicles will also be covered. Full personal protective equipment without SCBA is required.

Instructor: State Fire Rescue Training Instructors

CLASS 11:

ATV SAFETY & RESCUE

This is a 2 day course offered on Saturday and Sunday. Topic include protective gear, main ATV parts and safety features, pre-ride inspection, operating safety, riding skills, riding on slopes or other terrains, first aid and emergency situations.

The course is sponsored by KY Dept of Agriculture

Equipment needed for the class. Students need to bring their own ATV, Safety glasses, gloves, approved helmet and boots.

Instructor: Dale Dobson, Kentucky Department of Agriculture

CLASS 12:

DRIVERS TRAINING

This is a 2 day course that will be held on both Saturday and Sunday. The class will incorporate both the cone course and the drivers

training simulator. Students must bring their own apparatus for the driving course.

Instructor: State Fire Rescue Training Instructors

CLASS 13:

**FIRE DEPARTMENT PLANNING AND RESPONSE TO WEATHER
RELATED EMERGENCIES**

This is a one day course that will be held on both Saturday and Sunday. Fire departments today do much more than just respond to fires. The fire service has an increasing role as an all-hazard response agency. Each year, Kentucky experiences a wide variety of weather phenomena which ultimately leads to responses from the local fire department and other public safety agencies. The morning session of this course will include information about some of the more common weather phenomena experienced in Kentucky, how to pre-plan for it, ways to anticipate its arrival, and discuss ways to improve fire department response in its aftermath. In the afternoon session, a SKYWARN Weather Spotter class will be presented by the National Weather Service.

Instructor: State Fire Rescue Training Instructors

CLASS 14:

METH LAB AWARENESS

This class is 4 hours and will be held on Saturday and Sunday mornings. This is a unique 4 hour Hazardous materials training dealing with Meth labs. This class will enable the student to identify a Meth lab and recognize the chemicals used in its production. It will also inform the student of the dangers they may face when exposed to a lab. Topics for discussion will include: The history of Meth Labs, the dangers that a firefighter faces, basic cooking methods and who and when to call for help.

Instructor: Operation Unite

CLASS 15:

SUCCESSFUL GRANT WRITING TECHNIQUES

This is a 4 hour class offered on Saturday Morning and Sunday Afternoon. This class will give you tips on successful grant writing ranging from the Assistance to Firefighters Grants Program to the Volunteer Firefighter Assistance Program. You will have a chance to ask questions and seek assistance from successful grant writers in this area. Also bring in your narratives and let's see if we can help you improve them to get more grant funding. This is a great opportunity for you to learn more about how the grant process works and what makes for a better narrative.

Instructors: State Fire Rescue Training Instructors

Class 16:

NFA – MANAGING COMPANY TACTICAL OPERATIONS – DECISION MAKING

This is a 16 hour two day course that will be held on Saturday and Sunday. This is a National Fire Academy course that is designed to develop the management skills needed by company officers to make decisions at structure fires. Key content areas include: an introduction, the command sequence, size up, developing an action plan, review of the incident command system. Actual hands-on training will be utilized by applying skills learned with a table top exercise. **Note: This class satisfies the requirements for FRT 156 in the KCTCS Fire Rescue Science Associates Degree Program**

Instructor: State Fire Rescue Instructors

Class 17:

MINING SITE EMERGENCIES

This is a one day class offered on both Saturday and Sunday designed to provide firefighters, law enforcement and emergency medical personnel with information and precautions that should be taken before or while responding to an emergency at surface mines, surface areas of underground mines, and surface mining facilities.

Contents include:

- Emergency response planning**
- Large haul truck fires**
- Structures in and around surface facilities**
- Use of mine equipment for rescue & fire fighting**
- Traffic control on mine roadways**
- First responder vehicle maintenance (Brakes & Steering)**

Hazards addressed:

- Explosive storage**
- Surge piles**
- Draw-off tunnels**
- Fuel Storage (stationary and mobile)**
- Belt conveyors**
- Electricity**
- Preparation plants and mills**
- Off road haul trucks and end loaders**
- Highwalls and highwall mining machines**
- Chemical and gases common to mines and facilities**
- Surface areas of underground mines**

**INSTRUCTORS: John G. Tyler and Glen Poe, United States
Department of Labor National Mine Health and Safety Academy**

Class 18:

EMERGENCY RESPONSE TO RAILROAD EMERGENCIES

This is a one day class offered on Saturday only. Different than previous offerings of railroad emergencies, this class features a short lecture portion followed by a comprehensive tabletop exercise that allows everyone to work together. Topics include, but not limited to: Establishment of command and control, initiation of public protection actions, control and containment of spilled product and establishment of a public information system.

INSTRUCTOR: Jim Briski, Manager of Hazardous Materials, CSX

CLASS 19:

WHERE IS A CHAPLAIN WHEN YOU NEED ONE?

This is a 2 day course, in modern fire service numerous factors have made it desirable; many consider it a necessity, to establish a formal position of Fire Chaplain. Fire Chaplains assist their departments in keeping their personnel physically and mentally prepared to respond in America's most dangerous and stressful work. The chaplain is trained in rehabilitation, accountability, incident command, EAP, PSOB, NFPA 1500, critical Incident management, funerals, drug and alcohol abuse and networking with outside agencies such as Red Cross, criminal activity and terrorism. The trained chaplain is often considered the crisis coordinator. This class will benefit officers from both departments which are considering a chaplains position or those that already have one appointed. Personnel who are serving as a chaplain or those considering this line of service are encouraged to attend.

Instructors: Dan Ennis, KY Federation of Fire Chaplains
